Eryngium planum

Blue Hobbit

Item no.: EP4001R

- FastraX perennial: First year flowering without vernalization
- First compact Eryngium on market
- Globe-shaped, mounding habit
- Intense, dark blue color

Crop Time	Spring: 28 - 32 weeks
Height ⌀	12 " / 30 cm
Exposure	Sun
Seed Form	Raw
Heat Zone	12-1
Hardiness Zone	4-8
Product Use	Bed, Landscape

TECHNICAL GUIDE

Eryngium planum Blue Hobbit

Usage
Plants for the border, attractive for bees and butterflies

Sow time
November-March for green pots, July-September for flowering in pots the following year

Sowing method
4-5 seeds per plug

Germination
Germinate at 62-75 °F (22-24 °C) for 7-10 days under lights. Sow in a well-drained media and cover lightly.

Growing on
Transplant into well-drained media with pH of 5.5 to 6.5. Grow on at 60-70 °F (15-21 °C). Fertilize at 50-100 ppm nitrate nitrogen after initial transplant increasing to 100-150 ppm once plants are well established.

Media
Use a well-drained, growing perennial substrate, pH: 6.0-7.5. Field: humus, sandy loamy soils with good drainage.

Temperature
Grow at 15-18 °C or outdoors. In winter indoors frost free at 3-5 °C or outdoors. Outdoor fleece cover needed. In spring the plants start to grow at 12-18 °C or outdoors at ambient conditions. The containers can be stored in cold storage at -1 °C and set up in intervals for forcing afterwards.

Fertilization
High fertilization levels are required.

Stage I Starts with the radicle breaking through the testa. The roots are touching the medium. Ends with fully developed cotyledons.
Stage II Starts from fully developed cotyledons. Ends with the fully developed true leaf or true leaf pair.
Stage III Starts from the fully developed true leaf or true leaf pair and ends with 80% of the young plants being marketable.
Stage IV All young plants are ready for sale and in the process of being hardened off. This stage lasts about 7 days.

The cultural recommendations are based on results from trials conducted under Central European conditions. Different conditions in other parts of the world may lead to deviations in results achieved.
